(bexagliflozin) tablets

NOW AVAILABLE BRENZAVVY[®] (bexagliflozin)

BRENZAVVY THE FIRST, SGLT2 INHIBITOR FOR TYPE 2 DIABETES MANAGEMENT

What can BRENZAVVY do for the independent pharmacy?

Support your patients with an affordable budget friendly solution for their Type 2 Diabetes Management (T2DM needs). Introducing BRENZAVVY (bexagliflozin); EXCLUSIVELY available for IPC members, BRENZAVVY is the first affordably priced, once-daily SGLT2 inhibitor approved by the FDA for use lowering blood sugar levels in adults with type 2 diabetes. BRENZAVVY is available for less than \$50 per month, just \$1.56 per day. Visit our warehouse to place your order NOW!

Why BRENZAVVY:

- EXCLUSIVE Access and empowering independent pharmacies with BRENZAVVY through IPC.
- Bridge the accessibility gap by offering BRENZAVVY, previously limited to online pharmacies.
- Elevate patient care by providing a more affordable and effective once-daily solution for lowering blood sugar levels.
- Set your independent pharmacy apart as the go-to destination for individuals managing type 2 diabetes.
- Gain the autonomy to meet the diverse healthcare needs of your community while contributing to the overall well-being by exclusively stocking BRENZAVVY.

Optimize your pharmacy's success:

- Boost Cash Flow with new cash pay customers.
- Fill prescriptions that may have previously gone unfilled due to the expensive costs of other SGLT2 inhibitors.
- Open doors to new patients seeking advancements in diabetes care.
