# Why do I need a buying group that has Government Relations?

## Your business growth depends on it

Without an eye, ear, and voice in the legislative process you leave the future of your business to chance.

## We can make an impact in numbers

IPC is the largest buying group in the nation and together we can make a big impact with our collective voice.

## We can shape the industry's future

The pharmacy industry is changing on many levels – technology, new services, new therapies, laws, and regulations. Don't leave out a critical component to understanding the future of pharmacy.

## IPC buying group members are benefiting from our advocacy and are committed to taking action when called upon.

*"We weren't getting paid fairly by the companies managing Ohio Medicaid. IPC's advocacy directly affected not only our bottom line and our cash flow, but also directly affected patient care. When a pharmacist or business owner is not worried about making their wholesaler payment twice a month, they can concentrate better on having more programs for patients."*

*- Bilal Salim, Holland Discount Pharmacy, Holland, OH*

# Ready to Get Started?

**Take control of your business today and tomorrow.  
It's time to future-proof your pharmacy.**

## Federal, State & Local Impact.

## LET IPC DO THE HEAVY LIFTING.

We will let you know when to stand up and be counted.

### IPC WILL.

- Stay on top of hundreds of bills and laws being crafted, discussed, debated, and passed every month.
  - Advocate for independent pharmacy to federal, state and local legislators and officials.
- Collaborate with other advocates to ensure a unified voice and message.
  - Be your advocate who will let you know when to speak up and who are the right legislators to talk to.
  - We will provide you with email templates and links to the right legislators so you can take action quickly and get back to running your business.

### YOU WILL.

Take action quickly on IPC grassroots campaigns.

Together we will future-proof your pharmacy!
